At the Ojai Reunion

Arthur N. Young was the speaker last July at the Ojai joint reunion of CNAC and the Flying Tigers. His subject: "Behind the Scenes in China Aviation".

Besides being Financial Adviser to China Mr. Young had a long connection with aviation in China and with both organizations. In 1932 as desired by Generalissimo Chiang Kai-shek and Finance Minister T. V. Soong he negotiated the arrangements for the coming to China of the civilian group headed by retired Colonel Jack Jouett to train military flyers.

During the war he was a director of CNAC and active in its affairs. At the time of Pearl Harbor he negotiated with India arrangements for the Hump route. Also he drafted the agreements for the Flying Tigers and helped to procure their planes and equipment and facilities in Burma.

His Ojai speech told of incidents not generally known in the course of these activities, while working closely with W. L. Bond, the Pan-American organization and General Claire Chennault. He lived for some time in the house with both men in Chungking.
